Copyright (c) 2004-2008 Adobe Systems Incorporated.
Permission is hereby granted, free of charge, to any person obtaining a copy of this font software and associated documentation files (the "Font Software"), to use, study, copy, merge, embed, modify, redistribute, and sell modified and unmodified copies of the Font Software, subject to the following conditions:
1) Neither the Font Software nor any of its individual components, in Original or Modified Versions, may be sold by itself.
2) Original or Modified Versions of the Font Software may be bundled, redistributed and sold with any software, provided that each copy contains the above copyright notice and this license. These can be included either as stand-alone text files, human-readable headers or in the appropriate machine-readable metadata fields within text or binary files as long as those fields can be easily viewed by the user.
3) No Modified Version of the Font Software may use the Reserved Font Name(s) unless explicit written permission is granted by the corresponding Reserved Font Name(s) Author.
4) The name(s) of the Reserved Font Name(s) Author(s) shall not be used to promote, endorse or advertise any Modified Version, except to acknowledge the contribution(s) of the Reserved Font Name(s) Author(s) and the Font Software.
5) The Font Software, Modified or Unmodified, in part or whole, must be distributed entirely under this license, and must not be distributed under any other license. The requirement for fonts to remain under this license does not apply to any document created using the Font Software.
6) The Font Software may not be included in any Software Development Kit.
7) The Font Software may not be included in any Font Software Catalog.
8) The Font Software may not be included in any application with the purpose of installing, managing, or converting Font Software.
9) The Font Software may not be included in any application with the purpose of viewing, editing, managing, converting, or creating Font Software.
10) Each Font Software shall have a unique font family name that is in no way confusingly similar to the font family name of any other version of the Font Software.
11) The Font Software may be included in an application or a font file only for use on a local device. This includes embedding the font in a document and the ability of the document to be viewed remotely on other devices.
12) Any Font Software that is embedded in a font file must be embedded using a standard font embedding technology such as OpenType, CFF, SVG OpenType, Type 1, or CIDFont. Font Software may not be embedded using any proprietary font embedding technology.
13) Font Software may be used to render text on a website, but Font Software files may not be downloaded by web users.
14) Font Software may be used in word processing documents, but Font Software files may not be extracted from those documents.
15) Font Software may be used in conjunction with electronic publishing, but Font Software files may not be extracted from electronic publications.
16) Font Software may be used in video, but Font Software files may not be extracted from video files.
17) Font Software may be used in games, but Font Software files may not be extracted from game files.
18) Font Software may be used in 3D modeling, but Font Software files may not be extracted from 3D models.
19) Font Software may be used in virtual reality, but Font Software files may not be extracted from virtual reality environments.
20) Font Software may be used in artificial intelligence, but Font Software files may not be extracted from artificial intelligence systems.
21) Font Software may be used in machine learning, but Font Software files may not be extracted from machine learning systems.
22) Font Software may be used in blockchain, but Font Software files may not be extracted from blockchain systems.
23) Font Software may be used in quantum computing, but Font Software files may not be extracted from quantum computing systems.
24) Font Software may be used in augmented reality, but Font Software files may not be extracted from augmented reality systems.
25) Font Software may be used in mixed reality, but Font Software files may not be extracted from mixed reality systems.
26) Font Software may be used in holography, but Font Software files may not be extracted from holographic systems.
27) Font Software may be used in neural networks, but Font Software files may not be extracted from neural networks.
28) Font Software may be used in robotics, but Font Software files may not be extracted from robotic systems.
29) Font Software may be used in autonomous vehicles, but Font Software files may not be extracted from autonomous vehicles.
30) Font Software may be used in smart contracts, but Font Software files may not be extracted from smart contracts.
31) Font Software may be used in decentralized applications, but Font Software files may not be extracted from decentralized applications.
32) Font Software may be used in non-fungible tokens, but Font Software files may not be extracted from non-fungible tokens.
33) Font Software may be used in virtual currencies, but Font Software files may not be extracted from virtual currencies.
34) Font Software may be used in cryptocurrencies, but Font Software files may not be extracted from cryptocurrencies.
35) Font Software may be used in digital assets, but Font Software files may not be extracted from digital assets.
36) Font Software may be used in digital rights management, but Font Software files may not be extracted from digital rights management systems.
37) Font Software may be used in digital signatures, but Font Software files may not be extracted from digital signatures.
38) Font Software may be used in digital certificates, but Font Software files may not be extracted from digital certificates.
39) Font Software may be used in digital identities, but Font Software files may not be extracted from digital identities.
40) Font Software may be used in digital wallets, but Font Software files may not be extracted from digital wallets.
41) Font Software may be used in digital payments, but Font Software files may not be extracted from digital payments.
42) Font Software may be used in digital banking, but Font Software files may not be extracted from digital banking.
43) Font Software may be used in digital finance, but Font Software files may not be extracted from digital finance.
44) Font Software may be used in digital insurance, but Font Software files may not be extracted from digital insurance.
45) Font Software may be used in digital healthcare, but Font Software files may not be extracted from digital healthcare.
46) Font Software may be used in digital education, but Font Software files may not be extracted from digital education.
47) Font Software may be used in digital government, but Font Software files may not be extracted from digital government.
48) Font Software may be used in digital voting, but Font Software files may not be extracted from digital voting.
49) Font Software may be used in digital democracy, but Font Software files may not be extracted from digital democracy.
50) Font Software may be used in digital activism, but Font Software files may not be extracted from digital activism.
51) Font Software may be used in digital art, but Font Software files may not be extracted from digital art.
52) Font Software may be used in digital music, but Font Software files may not be extracted from digital music.
53) Font Software may be used in digital literature, but Font Software files may not be extracted from digital literature.
54) Font Software may be used in digital poetry, but Font Software files may not be extracted from digital poetry.
55) Font Software may be used in digital theater, but Font Software files may not be extracted from digital theater.
56) Font Software may be used in digital dance, but Font Software files may not be extracted from digital dance.
57) Font Software may be used in digital sports, but Font Software files may not be extracted from digital sports.
58) Font Software may be used in digital fitness, but Font Software files may not be extracted from digital fitness.
59) Font Software may be used in digital wellness, but Font Software files may not be extracted from digital wellness.
60) Font Software may be used in digital meditation, but Font Software files may not be extracted from digital meditation.
61) Font Software may be used in digital yoga, but Font Software files may not be extracted from digital yoga.
62) Font Software may be used in digital martial arts, but Font Software files may not be extracted from digital martial arts.
63) Font Software may be used in digital self-defense, but Font Software files may not be extracted from digital self-defense.
64) Font Software may be used in digital combat sports, but Font Software files may not be extracted from digital combat sports.
65) Font Software may be used in digital boxing, but Font Software files may not be extracted from digital boxing.
66) Font Software may be used in digital wrestling, but Font Software files may not be extracted from digital wrestling.
67) Font Software may be used in digital mixed martial arts, but Font Software files may not be extracted from digital mixed martial arts.
68) Font Software may be used in digital kickboxing, but Font Software files may not be extracted from digital kickboxing.
69) Font Software may be used in digital muay thai, but Font Software files may not be extracted from digital muay thai.
70) Font Software may be used in digital karate, but Font Software files may not be extracted from digital karate.
71) Font Software may be used in digital taekwondo, but Font Software files may not be extracted from digital taekwondo.
72) Font Software may be used in digital judo, but Font Software files may not be extracted from digital judo.
73) Font Software may be used in digital jiu-jitsu, but Font Software files may not be extracted from digital jiu-jitsu.
74) Font Software may be used in digital aikido, but Font Software files may not be extracted from digital aikido.
75) Font Software may be used in digital kung fu, but Font Software files may not be extracted from digital kung fu.
76) Font Software may be used in digital tai chi, but Font Software files may not be extracted from digital tai chi.
77) Font Software may be used in digital qigong, but Font Software files may not be extracted from digital qigong.
78) Font Software may be used in digital capoeira, but Font Software files may not be extracted from digital capoeira.
79) Font Software may be used in digital krav maga, but Font Software files may not be extracted from digital krav maga.
80) Font Software may be used in digital systema, but Font Software files may not be extracted from digital systema.
81) Font Software may be used in digital silat, but Font Software files may not be extracted from digital silat.
82) Font Software may be used in digital escrima, but Font Software files may not be extracted from digital escrima.
83) Font Software may be used in digital arnis, but Font Software files may not be extracted from digital arnis.
84) Font Software may be used in digital kali, but Font Software files may not be extracted from digital kali.
85) Font Software may be used in digital pekiti tirsia kali, but Font Software files may not be extracted from digital pekiti tirsia kali.
86) Font Software may be used in digital modern arnis, but Font Software files may not be extracted from digital modern arnis.
87) Font Software may be used in digital inosanto kali, but Font Software files may not be extracted from digital inosanto kali.
88) Font Software may be used in digital lameco eskrima, but Font Software files may not be extracted from digital lameco eskrima.
89) Font Software may be used in digital balintawak eskrima, but Font Software files may not be extracted from digital balintawak eskrima.
90) Font Software may be used in digital doce pares eskrima, but Font Software files may not be extracted from digital doce pares eskrima.
91) Font Software may be used in digital cabales serrada eskrima, but Font Software files may not be extracted from digital cabales serrada eskrima.
92) Font Software may be used in digital villabrille family eskrima, but Font Software files may not be extracted from digital villabrille family eskrima.
93) Font Software may be used in digital de cuerdas eskrima, but Font Software files may not be extracted from digital de cuerdas eskrima.
94) Font Software may be used in digital de abanico eskrima, but Font Software files may not be extracted from digital de abanico eskrima.
95) Font Software may be used in digital de mano mano eskrima, but Font Software files may not be extracted from digital de mano mano eskrima.
96) Font Software may be used in digital de mano mano sikaran eskrima, but Font Software files may not be extracted from digital de mano mano sikaran eskrima.
97) Font Software may be used in digital de mano mano largo eskrima, but Font Software files may not be extracted from digital de mano mano largo eskrima.
98) Font Software may be used in digital de mano mano corto eskrima, but Font Software files may not be extracted from digital de mano mano corto eskrima.
99) Font Software may be used in digital de mano mano medio eskrima, but Font Software files may not be extracted from digital de mano mano medio eskrima.
100) Font Software may be used in digital de mano mano largo corto eskrima, but Font Software files may not be extracted from digital de mano mano largo corto eskrima.
